Tina Roach, AIA, LEED AP

Contact Information:
Quinn Evans Architects
2121 Ward Place, NW, 4th Floor, Washington, DC 20036
202.298.6700, troach@quinnevans.com, wwwquinnevans.com

Education:
M.Arch. and certificate in historic preservation, University of Texas at Austin, 1998
B.A., art and architectural history, University of Chicago, 1990

Experience:
Associate, Quinn Evans Architects, specializing in building renewals and sustainable design. For the past 10 years, she has participated in the restoration, renewal, and greening of university buildings, public schools, a landmark market, and the American Institute of Architects Headquarters building. She has specialized experience in the interpretation and application of LEED NC 2.1/2.2 and LEED for Homes, in both new and historic buildings. She has presented many times on the topic of sustainable preservation locally and nationally.

Memberships:
Association for Preservation Technology International, Technical Committee on Sustainable Preservation
Association for Preservation Technology, Washington, D.C. Chapter

Fellowship:
Awarded the 2009 Richard Morris Hunt Fellowship, an honor bestowed by the American Architectural Foundation and The French Heritage Society for architects pursuing a career in historic preservation. The fellowship is a formal information exchange on the protocols, principles, and practices that inform preservation in the United States and France. During the six-month program in France, Ms. Roach will focus on the synergies and conflicts between sustainable design and historic preservation in the two countries.
