### Experience:

Associate professor of landscape architecture, Pennsylvania State University.

Principal and founder of Paul Daniel Marriott + Associates, Washington, DC, 2004-present. A historic and scenic road preservation planning office specializing in historic preservation, corridor studies, and regional planning strategies and analysis for historic roads, scenic byways, gateways and linear corridors. Areas of expertise include visual analysis, community consensus development, highway safety, and historic landscapes.

Director, Rural Heritage/Historic Roads Program, National Trust for Historic Preservation, Washington, DC, through 2004.

Projects have included corridor studies and management plans for the Alaska Highway, British Columbia; the Palisades Interstate Parkway, NJ; the Kuhio Highway, HI; the Historic National Road, IN; the 19th-century carriage drives, Marsh-Billings-Rockefeller National Historical Park, VT; and U.S. Route 66, NM and OK. The corridor management plan for the Arroyo Seco Parkway (CA 110), CA, resulted in the designation of the historic road as a National Scenic Byway. Gateway analysis was prepared for Historic U.S. Route 101, City of Encinitas, CA.
